*Three terms define the relative performance Z-Score rating versus the markets (US = S&P 500; GBL = S&P Global 1200; CDA = S&P/TSX Composite)

(a) % Outperforming - what percentage of sector members is outperforming the market,
(b) Reward/Risk - how consistent the median relative strength performance of the sector membership (star/bomb ranking), and
(c) Trend Psn - what is the net percentage of the sector members which are breaking above/below relative strength channels.

The strength Z-Score is weighted 60% towards the trend parameters (% outperforming and reward/risk ratios) and 40% towards the trend positions (reversals of trends). Gridlines are placed at 0.5 increments.

See Help Pages for further details.

User Guide 1 - Definitions & Dataset

Group Strength
Our Global Group analysis is based on bottom-up equity relative strength analysis as opposed to industry group (index) relative strength analysis.

Strength Decile Defined By
1. What percentage of a group's members are outperforming
2. How consistent that outperformance is
3. How the are members positioned (above/below) vs. their trend channels.

Momentum Decile
Rate of change of strength (change in 5-day moving average)

The Underlying Equity Relative Strength Analysis
Each day, for every equity we cover, our relative strength system assesses the best fit trend from a spectrum which covers a minimum trend duration of six months, and a maximum of 4-years. The "best fit" is the trend which maximizes duration, and minimizes deviation from the trend. Our process is flexible, thorough, and because it is run daily, timely.

The Dataset:
- Over 4,000 securities.
- Groups have a:
  ...Minimum of 9 constituents
  ...Median depth of 17
  ...Average depth of 26

Heat Map Colour and Symbol Guide
Strength is highlighted by the background of the group title
- Bright green = best (1st decile) transitions towards...
- Bright red = worst (10th decile)
Momentum is highlighted in the border of the group title
- Colour map for momentum is the same as strength
Symbols to the right of the group ticker show where a group moved from in the previous session. Below the group symbol we highlight the number and total market capitalization of the members in a group. Clicking on the group, which brings up the chart via a hyperlink, will help to clarify the moves.
User Guide 2 - Momentum

Our Goals:
- To buy outperforming stocks in favoured groups
- To avoid underperforming stocks in unfavoured groups
- To be alerted of and act on the changes

#1 Rule of Momentum: You can use it only if it exists

- In stable/trending markets, one can buy stocks with high strength and momentum and hold them as long as momentum does not turn negative (trend following).

- In very rotational markets (e.g., where credit, currency, commodity conditions are choppy/changing):
  - Buying high strength and high momentum may be dangerous (buying yesterday’s winners).
  - One is better off buying stocks with moderate strength and high momentum (bottom fishing).
User Guide 3 - Buy/Hold/Sell

Buy
- Groups with high strength and high positive momentum (top left) - “In Favour”
- Groups with moderate strength and high positive momentum - “Transitioning to Positive”
- Groups with mediocre strength and high positive momentum - “Gaining Favour”

Buy/Hold
- Groups with high strength and neutral momentum (middle left) - “Maintaining Favour”

Sell
- Groups with low strength and high negative momentum (bottom right) - “Out of Favour”
- Groups with moderately negative strength and high negative momentum - “Transitioning to Negative”
- Groups with mediocre strength and high negative momentum - “Losing Favour”
User Guide 4 - Hyperlinks To Decile Charts & Stock Selection

- Each group is hyperlinked to a chart that shows the relative strength decile as a function of time, and the moving average (momentum).

- Each chart is hyperlinked to the group membership, in our RS Filter Toolkit.
BMO NB hereby certifies that the views expressed in this report accurately reflect the firm's quantitative research model. BMO NB also certifies that no part of the firm's compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

**General Disclosure**

The information and opinions in this report were prepared by both BMO Nesbitt Burns Inc. and BMO Nesbitt Burns Ltée./Ltd., collectively (“BMO NB”) and BMO Capital Markets Limited (U.K.), (“BMO CM Ltd”). BMO NB and BMO CM Ltd. are not subject to U.S. rules with regard to the preparation of research reports and the independence of analysts. “BMO Capital Markets” is a trade name used by the BMO Investment Banking Group, which includes the wholesale arm of Bank of Montreal and its subsidiaries BMO NB in Canada, BMO Capital Markets Ltd. in the U.K. and BMO Capital Markets Corp. in the U.S. BMO Capital Markets Ltd. and BMO Capital Markets Corp. are affiliates of BMO NB. Bank of Montreal or its subsidiaries (“BMO Financial Group”) has lending arrangements with, or provide other remunerated services to, many issuers covered by BMO NB research. A significant lending relationship may exist between BMO Financial Group and certain of the issuers mentioned herein. The opinions, estimates and projections contained in this report are those of BMO NB and BMO CM Ltd. as of the date of this report and are subject to change without notice. BMO NB and BMO CM Ltd. endeavour to ensure that the contents have been compiled or derived from sources that we believe are reliable and contain information and opinions that are accurate and complete. However, BMO NB and BMO CM Ltd. make no representation or warranty, express or implied, in respect thereof, takes no responsibility for any errors and omissions contained herein and accepts no liability whatsoever for any loss arising from any use of, or reliance on, this report or its contents. Information may be available to BMO NB, BMO CM Ltd or its affiliates that is not reflected in this report. The information in this report is not intended to be used as the primary basis of investment decisions, and because of individual client objectives, should not be construed as advice designed to meet the particular investment needs of any investor. This material is for information purposes only and is not an offer to sell or the solicitation of an offer to buy any security. The research analyst and/or associates who prepared this report are compensated based upon (among other factors) the overall profitability of BMO NB, BMO CM Ltd. and its affiliates, which includes the overall profitability of investment banking services. BMO NB, BMO CM Ltd., or its affiliates expect to receive or will seek compensation for investment banking services within the next 3 months from all issuers covered by BMO NB. BMO NB, BMO CM Ltd. or its affiliates will buy from or sell to customers the securities of issuers mentioned in this report on a principal basis. BMO NB, BMO CM Ltd. or its affiliates, officers, directors or employees may have a long or short position in the securities discussed herein, related securities or in options, futures or other derivative instruments based thereon. The reader should assume that BMO NB, BMO Capital Markets Ltd., BMO Capital Markets Corp., Bank of Montreal or their affiliates may have a conflict of interest and should not rely solely on this report in evaluating whether or not to buy or sell securities of issuers discussed herein.
